

## **GEO PARK SUPPORTS EDUCATION OF CHILDREN AND YOUNG PEOPLE FROM CASANARE**

- *GeoPark benefited more than 3,000 children and young people with the delivery of school kits to enter the classroom.*
- *This initiative had an investment of more than \$ 130 million pesos to ensure that all children formally linked to the education system have school supplies.*

**January 26, 2017** - GeoPark, under its mission of "**Creating value and giving back**" makes it possible to carry out initiatives that have an impact on the training and future of children and young people in Casanare. It is for this reason that the Company benefited more than 3,000 students with the delivery of school kits.

Contributing to Casanareños' children and young people to have more and better tools to go to study is a fact that we are proud of, we are convinced that education is the basis of an equitable and inclusive society," said Norma Sánchez, GeoPark Manager of Social and Business Responsibility.

This initiative had an investment of more than \$ 130 million pesos to ensure that all children formally linked to the educational system in the areas of influence of the Company, have the necessary tools to successfully start their school year. We are convinced that the children are the next community leaders, promoters of responsible change from respect and values.

### **ABOUT GEO PARK**

GeoPark is a leading independent Latin American Company in exploration, operation and consolidation of oil and gas assets and with growth platforms in Chile, Colombia, Brazil, Peru and Argentina.
