

GEO PARK REITERATES RESPECT FOR OFFICIAL MEASURES AND CORRECTS FALSE INFORMATION

Lima, Peru. June 2, 2020 – In response to complaints that the Autonomous Territorial Government of the Wampis Nation (GTANW) has repeatedly made about the alleged failure of GeoPark to comply with measures ordered by the Government of Peru regarding the prevention of COVID-19 at the GeoPark-operated Morona Project in the Morona district, Datem del Marañón (Loreto), the Company informs that:

- Since March 15 2020, in line with instructions from the Company's Socioenvironmental Department and in anticipation of national government measures through Supreme Decree N°044-PCM-2020 of the Government of Peru, no GeoPark employee has made visits, held meetings or been in physical contact with communities in the direct or indirect areas of influence at the Morona Project, Datem del Marañón, Loreto region. This measure was implemented in order to guarantee the health and welfare of the indigenous Achuar, Wampis, Shapra, Awajun and Shawis populations in the Morona basin of the district in question.
- On the same date, March 15, 2020, GeoPark reduced the number of personnel at the Morona Camp, confined them to the camp and extended their shifts. Personnel are only carrying out maintenance activities within the camp.
- GeoPark asks GTANW to rectify the information that it has circulated about the company, which generate misinformation and unnecessary concern for communities in the Morona district.
- In response to the constant dissemination of false information by GTANW regards the actions of the company, GeoPark has raised and will continue to raise the matter of these unfounded complaints with the Presidency of the Council of Ministers, the Mines and Energy Ministry, the Ministry of the Interior, the Ministry of Culture, Perupetro, Loreto Regional Government, Morona Municipality, the Ombudsman and other relevant authorities.

GeoPark has opportunely implemented all the preventative measures established by the World Health Organization and the Government of Peru, in line with its permanent commitment to the protection and integrity of all its neighbors.

ABOUT GEO PARK

GeoPark is a leading independent Latin American oil and gas explorer, operator and consolidator with operations and growth platforms in Colombia, Peru, Argentina, Brazil, Chile and Ecuador. As part of its mission of "Creating Value and Giving Back", the Company develops sustainable social

investment programs in conjunction with the State and local authorities and communities, which aim to promote positive changes in the areas in which it has activities.

ABOUT THE MORONA PROJECT

Jointly operated by GeoPark and Petroperú, the Morona Project is in Peru's Loreto region. The project uses a new model of oil development that privileges the participation of resident indigenous communities in the area of influence, valuing their opinions and including them in social, environmental and operational management plans. In its first stage the Morona Project will produce 10,000 boepd, equivalent to one quarter of Peru's current oil production, and will generate important development opportunities at local, regional and national levels.
