

GEOPARK TO START KNOWLEDGE TRANSFER WORKSHOP SERIES

Workshops will run during October and November as part of the CEOP (Special Oil Operation Contracts) Technology Transfer Program.

Punta Arenas, Chile – September 30, 2020 – GeoPark will hold an online workshop October 7 on process compliance in purchasing and contracting, as the first event in a series of training sessions in October and November for the general public in Chile's Magallanes Region, oil sector professionals and university students.

The discussion will cover important tools used in the industry, supplier management procedures, goods and services purchasing processes, international regulations in purchasing and contracting processes, and reports and standards for business management measurement.

The workshop series is part of the Technological Transfer Program of Special Oil Operation Contracts (CEOPs), and aims to give comprehensive insight to the hydrocarbons and energy sectors and technical, environmental, social management and cybersecurity issues in particular.

GeoPark professionals and special guests will lead the activities. Anybody wanting to attend can register by sending their details - name and surname, contact telephone number and email address - to ldavis@geo-park.com.

About GeoPark

GeoPark is a leading independent Latin American oil and gas explorer, operator and consolidator with operations and growth platforms in Colombia, Peru, Argentina, Brazil, Chile and Ecuador. As part of its mission to "Create Value and Give Back", the company develops sustainable social investment programs in conjunction with the State and local authorities and communities, which aim to promote positive changes in the areas it has activities in.
